

AVAILABLE

55,000 Gallon Storage Tanks (4) and Complete Engineered System

PRODUCT SPECIFICATIONS

Manufacturer	Hub Technologies
Quantity	4
Year Manufactured	2005

Type	144" O/D ASME D&F HEAD
Volume	55,000 Gallon
Layout	Horizontal
Nominal Thickness	3/16"
Diameter	143' 5/8"
Length	63' 0"
Seams	Welded Double Butt
MDMT	- 25 F
Weight	33,000 lbs
Materials	Stainless Steel

Location	Somerset, MA
Condition	Very Good

OVERVIEW

This engineered system with four (4) stainless steel tanks was part of the Brayton Point Power Station operations from 2005 to 2017. The tank system was used for aqueous ammonia storage and remains in very good condition.
